**Special Notice**

**To:** All residents

**Date:** July 26, 2019

**Re:** Boiler Cleanings

Please be advised that the boilers will be shut down on Friday, June 28, 2019 from 8:00AM through 3:00PM. This will result in the loss of hot water as it is used. This will not affect the cold water.

The shutdown is necessary in order to perform the cleanings of the fireside surface of the boiler's, breeching and chimney base.

Performing the above allows our boilers to operate more efficiently while decreasing the potential for mechanical failure.

We apologize for any inconvenience that this may cause and thank you for your cooperation.

*Joe Giampietro*  
Facilities Manager
