## Special Notice

**To:** All residents

**Date:** August 21, 2020

**Re:** Back Flow Device Test

Please be advised that the cold water supply will be turned off on **Wednesday August 26, 2020** between the hours of 9:00AM to 3:00PM for approximately 15-20 minutes provided, there are no unforeseen circumstances.

The shutdown is necessary in order to perform the annual testing of our back flow devices as required by NYS and the Village of Ossining Building Dept.

As the water supply is restored, you may experience discolored water resulting from the disturbance of mineral deposits. This is a common occurrence and will subside as the water is used.

We apologize for any inconvenience this may cause and thank you for your cooperation.

*Joe Giampietro*

Facilities Manager
