Re: **Speeding in Parking Lots**

Date: January 4<sup>th</sup>, 2022

---

It has come to management's attention that residents and visitors have been speeding through parking lot D, on South Highland.

Residents have witnessed vehicles going as fast as 30 MPH when driving in the parking lot which is very dangerous for people walking to their car or trying to back out of their parking space.

Please be advised that we will not be installing the rubber speed bumps until AFTER the Winter months. Therefore, we need everyone to do their part by following the speed limit of 5 MPH while driving through parking lot D and all parking lots throughout the complex.

We thank you in advance for your anticipated cooperation in this matter.

Management
