New Recycling Rules

Since some Shareholders continue not to follow the paper recycling rules, the Board of Directors has decided to discontinue the courtesy of picking up the paper recycling and bulk garbage. **The following changes are effective Friday March 4, 2022.**

All paper recycling must be taken to the GREEN dumpster in Parking lot I behind 169 Charter Circle. This applies to bulk garbage as well, which should be taken to the bulk garbage shed in Parking Lot I.

You can no longer leave your paper/cardboard recycling or bulk garbage at the individual dumpster areas.

The Board felt it necessary to make this change due to those who do not follow the rules.

There is one large GREEN dumpster for paper recycling. The dumpster has a slot cut out in the front and all your paper recycling must be placed inside the dumpster via the slot.

There are surveillance cameras in the area and anyone not properly disposing of the paper, cardboard, junk mail or any trash will be assessed a \$100 processing fee.

Likewise, anyone leaving the paper recycling or bulk garbage at the individual dumpster area will also be assessed a \$100 processing fee.

Thank you for your cooperation

The Board of Directors
