**Special Notice**

**To:** All residents

**Date:** July 17, 2023

**Re:** Boiler Cleanings

Please be advised that the boilers will be shut down on **Thursday, July 20, 2023**, from 8:00 AM to approximately 3:00 PM. This will result in the loss of hot water as it is used.

The shutdown is necessary to perform the annual cleanings of the fireside surface of the boiler's, breeching, and chimney base.

Performing the above allows our boilers to operate more efficiently while decreasing the potential for mechanical failure.

We apologize for any inconvenience that this may cause and thank you for your cooperation.

*Joe Giampietro*

Facilities Manager
