Re: Gutter Cleaning

Please be advised that on **Saturday, December 9th**, Westchester Gutter Cleaning will be on-site to clean the gutters throughout the property. While we always try our best to avoid services of this nature performed on a weekend, Saturday's rise in temperature will warrant the gutters will be cleaned efficiently and safely.

To ensure that no debris or water enters your unit, please close all windows on the upper levels where possible. More importantly, please use caution when entering and exiting your unit.

We apologize for any disruption that this may cause and thank you for your cooperation

Joe Giampietro

Facilities Manager
