Re: High Meadow Fuel Charge Update

---

High Meadow Shareholders,

After careful consideration of our projected oil consumption for the 2023-2024 fiscal year, the board has voted to discontinue the fuel surcharge, effective June 1st, 2024. This means you should not see a surcharge on your June maintenance bill.

We appreciate your understanding in this matter, as weather is quite unpredictable. Thank you for your support in our continued efforts at fiscal responsibility.

Respectfully,

Board of Directors
