Tree Care Notice

To: All Residents

From: Joe Giampietro, Facilities Manager

Date: November 8, 2024

Re: Tree Inspection/spraying

Please be advised that SavAtree is scheduled to perform Plant Health Care (PHC) treatments on the date listed below.

As a precautionary measure, we recommend that you remove or cover all personal items on the landscape, move vehicles out to the street, and close windows before the scheduled treatment date.

To avoid overspray on your vehicle and allow room for the technician, all vehicles in parking lot "D" (South Highland Ave), should be removed by 8:00 a.m. on the scheduled treatment dates below. The Cooperative/Savatree will not be responsible for overspray on any vehicles that remain in the parking lots.

If you should have any questions concerning the Plant Health Care Program or would like to receive further information on the products or ingredients used, please call SavAtree at (914) 402-4521.

Treatment

Date

Antidesiccant 1

Monday, November 11, 2024

Note: In the event of inclement weather or unforeseen circumstances, scheduled treatments will be performed on the Monday of the following week. If inclement weather persists, we will send out another notification.

Thank You
